

ADVANTAGES
BOING

Since 2003, the brand Bo!ng has proposed the creation of objects to make the bathroom a friendly, secure, comfortable and joyful environment. Today, with the building systems in construction and household cleaning products, we ensure hygienic and sanitary health care settings easily and safely. Our products are practical, resistant and durable, as well as flexible, soft, warm and fun. Enjoy!

SOFT, SECURE AND COMFORTABLE

The flexibility, the soft touch and the soft texture, makes our products pleasant and safe. Absorbs shocks caused by tripping or falling.

SOFT AND FLEXIBLE

Gives security: cushions blows and falls. Resistant to impacts and bending.

LIGHT

Easy handling and installation. Saves energy on transport.

EASY ASSEMBLY

Ideal for reforms and new buildings. Metallic structure, drain, screws and siphon are provided.

COLOR AND SYMPATHY

Bo!ng washbasins come in a wide range of colors. You can make colors and finishes and they can be customized for project requirement. Talk to our team.

The products are designed for easy assembly and installation with simple and conventional means. It requires no equipment or personnel.

The manufacture of our products is environmentally friendly. They emit no pollutants or harmful gases into the atmosphere. The products are light, using just enough energy to manufacture and transport

SUSTAINABLE

Inert material. Does not decompose into contaminant elements. Does not omit noxious gases into the atmosphere in its making and consumes little energy.

RECYCLABLE

After its useful life the material can be used for the production of other products.

Our products are approved and certified

AIDIMA CERTIFICATE OF QUALITY

*AIDIMA Instituto Tecnológico del Mueble, Madera, Embalaje y Afines

HYGIENIC, RESISTANT AND DURABLE

The surfaces and shapes of our washbasins are smooth and soft, to facilitate Cleaning. The material is solid and has no surface porosity; it does not absorb dust and moisture, preventing mildew growth. We recommend cleaning with water, detergent and a cloth or sponge. Resists the chemical products used in the cleaning and hygiene of our own homes.

It withstands a wide range of temperatures, steam and dry heat, from 70 ° C to -30 ° C. It won't break or deform, with blows and an unlikely accidental cut, does not alter the functionality resulting in a self-sealing flexibility. No color is degraded by exposure to the elements.

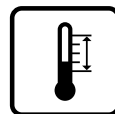

WATERPROOF

Made from flexible polyurethane. Smooth surface, non-porous.

HYGIENIC

Does not absorb humidity or dust, avoiding the proliferation of mold and mildew.

RESISTANT TO TEMPERATURES

Water to 70°C, water vapour, dry heat and the possible neglect of a burning cigarette.

DURABLE

Colorfast and weather resistant and resistant to UV rays. Inert material will not corrode or change the appearance or color.

EASY TO CLEAN

Does not need specific maintenance. Resistant to Chemical products used in domestic Cleaning. Resists: Bleach, ammoniac, detergent, Hydrogen peroxide and caustic soda. Do not use dyes.
